HAND GELS

steraClean

75% Alcohol based Gel hand sanitizer

Greek Pharmaceutical Organization Approved

- WHO-recommended handrub formulation (II)
- Antimicrobial Efficacy
- No water rinsing required

Packaging: 100ml, 500ml, 1Lt, 3Lt

DeSalin AV

Hands Cleansing Gel with Antimicrobial Agents

Test Results: ISO EN 1650, EN 1500:2013, EN 1276:2019

- Antimicrobial Efficacy in 60"
- No water rinsing required
- For frequent use

Packaging: 1Lt, 3Lt, 4Lt

EN 1276 & EN 13697+A1: Pseudomonas aeruginosa, Staphylococcus aureus, Escherichia coli, Enterococcus hirae
EN 1650: Candida Albicans | **EN 150:** Handrub Antiseptic

SURFACE CLEANERS WITH DISINFECTING AGENTS

DeSalin Eco

Nano driven, bio-degradable, all surface cleaner

Nano-driven composition with active antimicrobial substances, which provides hygiene and cleanliness for all surfaces. Ideal for everyday use, offers antimicrobial protection while removing every kind of dirt and leaving a long-lasting feeling of freshness. Ideal for kitchen, bathroom and several other surface. For DIY and professional use.

Packaging: 100ml, 750ml, 3Lt

Test Results: EN 1276, EN 13697+A1, EN 1650

DeSalin Kalk

Nano driven, descaler

Nano-driven composition with active antimicrobial substances, which provides hygiene and cleanliness while keeping the surfaces shiny without germs. It removes salt deposits, soap residues any greasy stains or dirt, leaving a long-lasting feeling of freshness. Ideal for sinks, bathtubs, acrylic surfaces, tiles, glass showers.

Packaging: 750ml, 3Lt

Test Results: EN 1276, EN 13697+A1

DeSalin AirClean

Nano driven, bio-degradable, long lasting, air conditioner cleaner

Nano-driven composition with active antimicrobial substances which provides hygiene and cleanliness in air-condition units. Designed for deep cleansing and removing foul odors. For direct application in metallic surfaces due to its non-corrosive composition. Improves indoor air quality. Ideal for air filters, HVAC ducts, air purifiers, vaporizers, condensers, valves, coolers.

Packaging: 750ml, 3Lt

Test Results: EN 1276, EN 13697+A1

DeSalin Lime

Nano driven, dilutable hard floor surface cleaner

Nano-driven composition with active antimicrobial substances which provides hygiene and cleanliness on marbles, tiles and hard floor surfaces. Ideal for everyday use while Nano-driven composition with active antimicrobial substances which provides hygiene and cleanliness on marbles, tiles and hard floor surfaces. Ideal for everyday use while tough with persistent stains. Treats and protects even delicate surfaces and helps them maintain their natural shine. Leaves a long-lasting feeling of freshness. Cost-efficient due to its concentrated formula that can be diluted with water up to 10 times.

Packaging: 1Lt, 3Lt

Test Results: EN 1276

DeSalin Mas

Nano driven, fogger disinfectant

Nano-driven composition with active antimicrobial substances for application through fogging. Fogged micro-substances provide elimination of microbes from the air and the surfaces. Ideal for ULV or electrostatic spraying foggers in houses, offices, hotels and sanitary spaces. Cost-efficient because of its concentrated formula that can be diluted with water up to 10 times.

Packaging: 3Lt, 10Lt

Test Results: EN 1276, EN 13697+A1

LONG LASTING ANTIMICROBIAL SHIELD COATINGS

Long-lasting

Photo-catalytic **Antimicrobial** Coatings for protection up to **6 weeks**

Easy application on: lift call buttons, control surfaces, button boards, cases, masonry, painted walls, benches, inox, knobs, rails, wall guards, trolleys, keys, phone cases, furniture, textiles

SurfaShield MBC

Test Results: EN 1276

Unique technology, based on Light-activated, photocatalytic TiO₂ nanocrystals. Permanent chemical anchoring of active ingredients on the treated surfaces. Active at both Interior & Exterior light conditions

Packaging: 1Lt, 3Lt

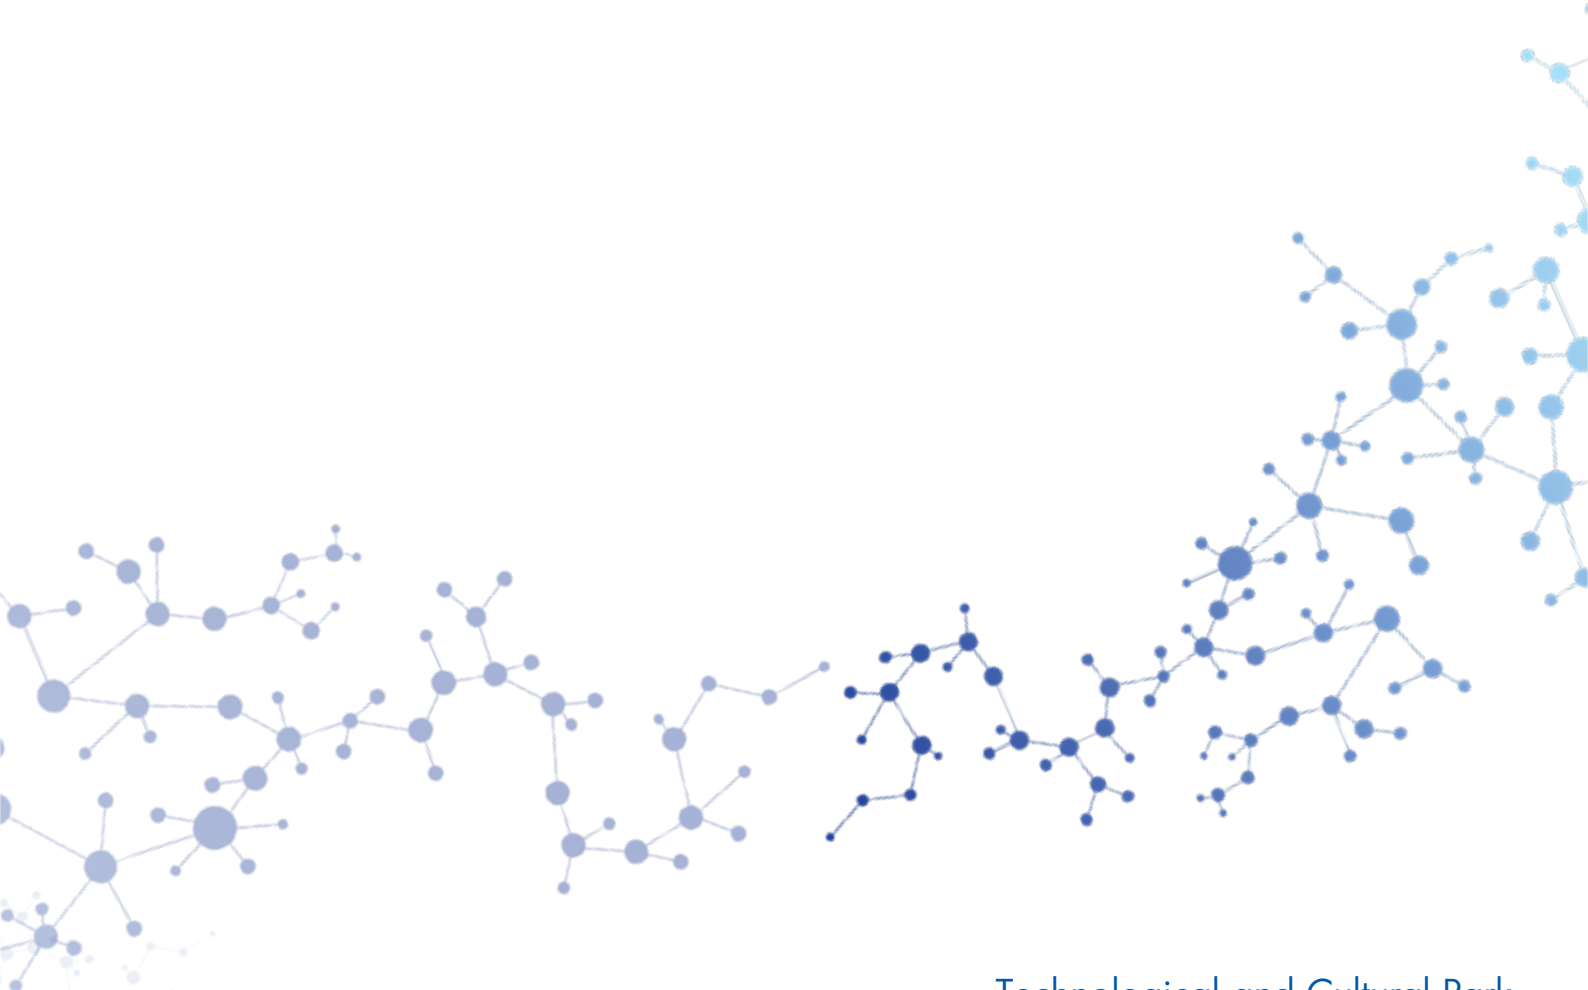

SurfaShield MBS

Test Results: EN 1276

Silver cations enriched formula for enhanced antimicrobial action

Packaging: 1Lt, 3Lt
